Presentation title:

STAGE PROTECTION AGAINST DEGRADATION DUE TO THE USE OF DEICING SALTS OF A STRUCTURE IN ANDORRA

Other Authors

Albelda Cuadra, Raúl, GLOBALVIA, SPAIN, ralbelda@globalvia.com

Summary:

In the current economic context, the managers of the roads discussed in detail their budgets in search of efficiencies and optimizations. In particular, allocations to the maintenance and ordinary and extraordinary maintenance of the structures are also subject to this review, while always safeguarding the condition to the conditioning factors of safety, even in severe climatic environments, as it is the case of Tunnel of Envalira, in Andorra.
