ÉQUIPE D'INTERVENTION MULTI-AGENCES (MART) POUR RÉPONDRE AUX ÉVÉNEMENTS RIGOUREUX DE L'HIVER

Autres Auteurs

Lees,

Resumé (anglais):

Scotland's worst gridlock in living memory occurred on the Monday 6th December 2010 as heavy snow fell during what was already a prolonged and extremely cold period. Hundreds of people were trapped in their vehicles for extended periods and part of the M8, the country's busiest road, was closed for over 48 hours.
