Presentation title:

PRACTICAL APPLICATION OF SNOW MELTING SYSTEM USING NATURAL RESOURCES IN JAPAN

Other Authors

Horino Yoshito, Office worker, Japan, horino@jgd.jp

Summary:

A large part of Japan is subject to severe winter. Currently, 22% of the population (approximately 28 million people) live in such regions, which have a total 230,000km². This is about 60% of the area of Japan.
