Titre de la présentation:

INNOVATIONS DANS LA GESTION DE L'ENTRETIEN D'HIVER EN LITUANIE

Autres Auteurs

Skirskas, Skirmantas, Director of Lithuanian Road Administration under the Ministry of Transport and Communications, Lithuania, skirmantas.skirskas@lra.lt;

Resumé (anglais):

Lithuania is a Baltic region country; therefore road maintenance in winter becomes a principal part of routine maintenance in this region. However, the economic crisis has impacted on the constrained budget in this area as well. This has resulted in the need to apply new attitude, methods, which could ensure effective implementation of road maintenance works even if there are significant losses of funding and lack of human resources.
